*Dear Mrs. Trump:*

I support Father PEDRO OPEKA, this Priest of Slovene origin, whom I think you know by reputation.

"MADAGASCAR FOUNDATION" is our Public Charity in the United States. <https://www.madagascar-foundation.org/latest-news/>

I solicit a private appointment with you to talk about important issues related to child protection and education, as well as a large Hospital Ship Project that can provide medical care and training of health professionals. For this project, I would like to create a group of high-feminine personalities, such as yourself, as the Leading personality.

- A Princess of the Kingdom of Saudi Arabia who could be appointed by Crown Prince Mohammed bin Salman al Saud
- Queen Rania - Princess Lalla Salma
- Princess Salama - Sheikha Hind Bint Maktoum
- Princess Kate (UK) - Queen Margrethe (DE)
- Princess Victoria (SW) - Queen Letizia (SP)
- Princess Charlene (CM)
- Sheikha Moza (QT)
- Brigitte Macron, who has already shown a certain interest through her Chief of Staff, Pierre-Olivier Costa.

We would not only have incredible support for this unparalleled humanitarian operation but also a discreet platform for negotiations on the future of the Middle East offering great opportunity for peaceful approaches.

You have already made the first steps towards the children of Africa on your last official trip; I offer you the second step to create a sustainable situation that will cover in its action the much-needed humanitarian aid to this continent for the years to come.

This will be a bridge between races and religions

About the financing of this operation Qatar and / or Saudi Arabia may be able to cover it, if they wish to do so, and will benefit them in the opening of their country to the world they wish to do.

Hoping that you will give me this great opportunity to meet you.
